THE NATURAL STEP TOWARD BETTER HEALTH

DermPe Skin Repair – naturally

WHAT IS DERMPE?

DermPe is a specially formulated homogenous mass of activated herbs used in the management of problem skin. **DermPe** relieves the symptoms of stubborn skin conditions and helps repair the appearance of your skin.

HOW DOES IT WORK?

DermPe contains a unique combination of ingredients that work in three ways. Firstly, they act to relieve the discomfort associated with problem skin conditions. Secondly, they attack the causes of inflammation and infection. Thirdly, they provide the right conditions and assist in the healing process – naturally, of course!

HERB TRADITIONAL USAGE

DermPe contains the following herbal ingredients:

- Burdock** treatment of *acne, boils, skin infections and inflammations.*
- Dandelion** treatment of *warts.*
- Juniper** treatment of *acne and dandruff.*

Horsetail & Meadowsweet clears the skin and resolves rashes.

Rosehip nourishes the skin

Bladderwrack treatment of eczema.

Cloves antiseptic, antiviral & antifungal properties assists in the treatment of acne, cold sores & tinea.

Cayenne stimulating properties increase circulation to affected area.

Fenugreek anti-inflammatory & antiseptic properties assists in the treatment of acne, rosacea and other skin conditions.

Fennel anti-bacterial & anti-inflammatory

Valerian soothes and relieves pain.

White Willow natural source of salicylic acid (anti-inflammatory & pain-reliever) which has been clinically proven to help in the treatment of psoriasis, eczema and acne.

Liquor picis carbonis clinically proven beneficial in the treatment of psoriasis & eczema. Unlike many other products, **DermPe** only includes a small enough quantity to assist the body's healing process. This ensures long term benefits.

PINOT DermPe – topical cream

Directions: Suitable for external use only. Mix cream thoroughly if it appears separated. Pat directly onto the affected area. Avoid excessive rubbing and prolonged exposure to sunlight after application. Reapply regularly.

If dryness occurs apply Pinot Crème moisturising cream.

As some skin conditions are symptomatic of your body being out of balance or stressed, we recommend taking Pinot CleanseU detox tonic in conjunction with DermPe dermatological cream.

Not to be used under occlusion except on medical advice. Not recommended for use on children under 2 years of age except under the direction and supervision of a physician. Not recommended for use during pregnancy or while breastfeeding.

Always read the label. Use only as directed. If symptoms persist consult your health care professional.

PRODUCT HISTORY

For over 20 years our range of natural herbal treatments have been prescribed and used by Australian healthcare practitioners. Over this time our herbal tonics, creams and formulas have been developed and refined so that their use, individually or in combination, has resulted in the effective treatment of many common ailments. For a complete treatment guide and patient testimonials visit our website: www.pinotherbal.com

PINOT'S SPIRAL VORTEX

The spiral vortex represents the production process used in the making of Pinot herbal products – we call it the Vortex Method. Pinot's unique method of sourcing, combining and mixing herbs is the result of over 20 years of product development.
