THE NATURAL STEP TOWARD BETTER HEALTH

Ease♀ Women's Relief – naturally

WHAT IS EASE♀?

Ease♀ is a liquid herbal formulation used for the relief of the unpleasant symptoms often associated with women's menstrual and menopausal disorders.

HOW DOES IT WORK?

Ease♀ contains the herbs Chaste Tree and Wild Yam. These herbs have long been used in treating menstrual irregularities (pains, tension and cramps) and the unpleasant symptoms of menopause (hot flushes, sweats) – naturally, of course!

HERB TRADITIONAL USAGE

Pinot Ease♀ contains the following herbal ingredients:

Chaste Tree – stabilises your body's delicate balance of hormones. It works by suppressing excessive amounts of the hormone prolactin – the milk producing hormone released by your pituitary gland. This results in an adjustment of the levels of the two female hormones; estrogen and progesterone.

Wild Yam – antispasmodic properties eases menstrual cramps and relieves muscle tension and pain. It also acts to relieve nausea. Wild Yam also contains diosgenin, which has anti-fatigue, anti-inflammatory, anti-stress, and estrogenic effects.

WHY WE DON'T MAKE TABLETS

Pinot herbal preparations are liquid extracts, not tablets.

Due to their rapid absorption liquid extracts present the most potent and efficient method to introduce healing herbs into the body - especially when taken under the tongue.

Tablets, on the other hand, have to first be digested before they can be absorbed and this takes time and energy. Tablets also contain many fillers and binding agents, some of which cannot be digested and these can place further stress on sensitive digestive systems.

PINOT EASE♀ – 50mL ORAL LIQUID

Dosage: Adults 1ml (one full dropper) in water or juice 3-4 times per day. For faster absorption place directly under the tongue. **NOTE:** For the relief of symptoms associated with menstrual irregularities please commence dosage two weeks before your next period. For more lasting relief we recommend you continue your dosage with a second bottle. Not recommended for use during pregnancy. **Always read the label. Use only as directed. If symptoms persist consult your health care professional.**

PRODUCT HISTORY

For over 20 years our range of natural herbal treatments have been prescribed and used by Australian healthcare practitioners. Over this time our herbal tonics, creams and formulas have been developed and refined so that their use, individually or in combination, has resulted in the effective treatment of many common ailments. For a complete treatment guide and patient testimonials visit our website: www.pinotherbal.com

PINOT'S SPIRAL VORTEX

The spiral vortex represents the production process used in the making of Pinot herbal products – we call it the Vortex Method. Pinot's unique method of sourcing, combining and mixing herbs is the result of over 20 years of product development.
