THE NATURAL STEP TOWARD BETTER HEALTH

Pinot's GinkGo
Memory &
Circulation
– naturally

WHAT IS GINKGO?

GinkGo Biloba is an ancient herb recognised throughout the world for its antioxidant properties. It has been clinically proven to improve memory, concentration and circulation.

WHY WE DON'T MAKE TABLETS

Pinot herbal preparations are
liquid extracts, not tablets.

Liquid extracts present the most potent and efficient method to introduce healing herbs into the body - especially when taken under the tongue.

Tablets, on the other hand, have to first be digested before they can be absorbed and this takes time and energy. Tablets also contain many fillers and binding agents, some of which cannot be digested and these can place further stress on sensitive digestive systems.

HOW DOES IT WORK?

Pinot GinkGo helps to improve peripheral circulation to the body's extremities, including the network of blood vessels that supply blood and oxygen to the brain. Ginkgo acts as a tonic to the brain and central nervous system, improving mental alertness & memory retention, assisting mood elevation and relieving tension and anxiety – naturally, of course!

Ginkgo has powerful antioxidant properties which help your body cleanse itself of damaging free radicals.

To make Pinot GinkGo we use multiple extraction methods on concentrated preparations of Ginkgo Biloba leaf - 50 parts Ginkgo to 1 part water/alcohol. We then measure the active components of the Ginkgo extract to ensure that it contains a clinically proven concentration of the herb's active components. This, combined with its easily absorbed liquid formulation, is why we believe that Pinot GinkGo is the best Ginkgo Biloba extract you can buy today.

DOSAGE

PINOT GINKGO – 50mL ORAL LIQUID

Adults: 1mL (one full dropper) in water or juice 2-3 times a day. For faster absorption place liquid directly under tongue. **Always read the label. Use only as directed. If symptoms persist consult your health care professional.**

PRODUCT HISTORY

For over 20 years our range of natural herbal treatments have been prescribed and used by Australian healthcare practitioners. Over this time our herbal tonics, creams and formulas have been developed and refined so that their use, individually or in combination, has resulted in the effective treatment of many common ailments. For a complete treatment guide and patient testimonials visit our website: www.pinotherbal.com

PINOT'S SPIRAL VORTEX

The spiral vortex represents the production process used in the making of Pinot herbal products – we call it the Vortex Method. Pinot's unique method of sourcing, combining and mixing herbs is the result of over 20 years of product development.
