THE NATURAL STEP TOWARD BETTER HEALTH

# StamiNa Endurance Plus – naturally

## WHAT IS STAMINA?

StamiNa is a liquid herbal blend traditionally used as a natural aphrodisiac and vitaliser. StamiNa may be beneficial in satisfying the specific physiological requirements of the male and female body. It increases stamina and endurance to ensure you perform at your peak.

## HOW DOES IT WORK?

StamiNa's natural herbal formula works two ways: first by increasing energy, drive and stamina, and secondly, by calming any nervous tension and anxieties that may hinder sexual performance – naturally, of course!

## HERB TRADITIONAL USAGE

**StamiNa contains the following herbal ingredients:**

**Avena Sativa (Wild Oats)** – Stimulates the nervous system leading to a sense of well-being and increased energy & vitality. Releases bound testosterone in your body which is responsible for stimulating sexual activity in both men and women.

**Passion Flower & Valerian** – Relieves anxiety & nervous tension and soothes muscle tension. Helps your body and mind relax.

## WHY WE DON'T MAKE TABLETS

**Pinot herbal preparations are liquid extracts, not tablets.**

Liquid extracts present the most potent and efficient method to introduce healing herbs into the body - especially when taken under the tongue.

Tablets, on the other hand, have to first be digested before they can be absorbed and this takes time and energy. Tablets also contain many fillers and binding agents, some of which cannot be digested and these can place further stress on sensitive digestive systems.

## DOSAGE

### PINOT STAMINA – 50mL ORAL LIQUID

**Adults** 1ml (one full dropper) in water or juice 3-4 times per day. For faster absorption place liquid directly under tongue.

Always read the label. Use only as directed. If symptoms persist consult your health care professional.
